

HEALTH AND SAFETY POLICY

The Company, through all levels of management, is committed to our legal responsibility to ensure, so far as it is reasonably practicable, that all our employees are safeguarded fully in respect of health, safety and welfare whilst at work. The policy equally applies to those members of the public who enter our premises as customers, contractors or visitors.

Our objectives are:

1. To provide conditions of work for all employees which positively precludes any danger to health. This means that the highest standards of hygiene will be identified and enforced throughout each establishment.
2. To ensure that all equipment is maintained properly and that none will be used knowingly when it presents any risk to the safety of staff or the public. Constant attention will be paid to provision and maintenance of unobstructed means of escape in emergencies.
3. To ensure that the health, safety and welfare of all employees will be under continuous review by management at all levels. Executive action and authority is disseminated to the line management in each establishment.

The company Safety Representative monitors all aspects of health, safety and welfare in the Company in respect of policy recommendations, training and examinations of reports received from offices and other establishments of the company.

The Company Safety representative is Nick Pilgrim - Director

Every employee is responsible to take charge of a situation if serious injury occurs in the absence of an appointed first aider, and to be responsible for the first aid box.

The achievement of the objective of this policy is very largely dependant upon total cooperation of every person who works for the company and indeed all have a legal duty to take reasonable precautions in guarding health and safety of themselves and others, and to observe the health and safety rules and procedures.

Date:- 17th August 2015

Signed.....

Nick Pilgrim – Managing Director
